Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION***Claim Rejections - 35 USC § 112***

1. Claims 1-78 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1: in line 1 "An" should be "A", the (n-1) multipliers of line 3 and the n-th multiplier of line 5 fail to be clearly related to the n multipliers of line 2 and the "wherein" phrase of the last 4 lines are the recitation of function without the recitation of the steps that are necessary to perform the function. Similarly note claims 2, 3, 5 and 7. Where are the "pre-filter" and "equalizer", e.g. note claim 2, lines 12 and 13, shown in the drawings? In claim 7 the phrases "the extreme value point of the amplitude characteristic of the frequency", lines 14-15, "the amplitude characteristic obtained from the interpolation polynomial equation", lines 17-18 and "the required range", lines 21-22, lack clear antecedent basis. Lines 12-15 of claim 7 are mis-descriptive because "the extreme value point" is not sufficient to generate "an interpolation polynomial equation". Also in claim 7 lines 20-23 are mis-descriptive because the recited "repeating" does not effect the recited "judging". Finally in claim 7 the last three lines are mis-descriptive because the recited third step does not obtain "the approximated amplitude characteristic". The "wherein" phrase of claim 9 is the recitation of function without the recitation of the steps that are necessary to effect the function. The functions attributed to the fourth step in claims 10 and 11 are inconsistent with the function of the fourth step as recited in claim 7. Claims 14- 78 contain deficiencies similar to claim 1-13.

Specification

2. The lengthy specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

Allowable Subject Matter

3. Claims 1-78 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

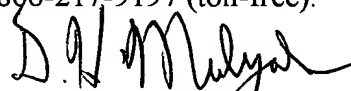

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to David H. Malzahn whose telephone number is (703) 305-9762. The examiner can normally be reached on M-Th from 7:30 to 6:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kakali Chaki, can be reached on 703-305-9662. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
